Moving from Crisis to Impact.

The Arrow Leadership Program™ Executive Stream strengthens your leadership skills, sharpens your soul and prepares you to lead differently for a better tomorrow.

The Virtual Executive Stream is a 12-month highly personal, intentional and transformational experience:

- **Jesus-Centered Transformation** – Be positioned to experience God’s love, rest in his grace and respond to his transforming presence in order to become the leader God has designed and called you to be.
- **Engaged Learning in Community Over Time** – Experience a blended learning approach of self-directed learning and real-time connections. In addition to four three-day virtual intensive gatherings, you will engage through class calls, workshops and peer support.
- **Training and Coaching** – Interact with specialty trainers on vital leadership needs, and you will be partnered with one of Arrow’s approved coaches.
- **Assessments and Individualized Feedback** – Receive professional assessments, reports and one-on-one coaching with a specialist to stimulate your self-awareness and guide your leadership development.

How is the Virtual Executive Stream unique?

- It’s a personal, intentional and transformational experience.
